

SPRINTER MARKING

SPRINTER[®]

MODEL DATA SHEET

AUTOMATIC INK CODE-MARKING MACHINES

EIGHT STANDARD MODELS

SPRINTER MODELS 22, 44, 66, 88, 1010, 416, 616, & 816

EXTENDED WIDTH MARKING HEAD

SPRINTER MODEL 416

EXTENDED STROKE / MARKING HEAD

SPRINTER MODEL 44 E4 EH1

COMPLETE BENCHTOP SYSTEM

SPRINTER BENCHTOP STANDARD MODEL

ALL STANDARD SPRINTER MODELS ARE CHARACTERIZED ON REVERSE SIDE

RUN A SPRINTER IN YOUR CODE-MARKING APPLICATIONS

APPLICATIONS

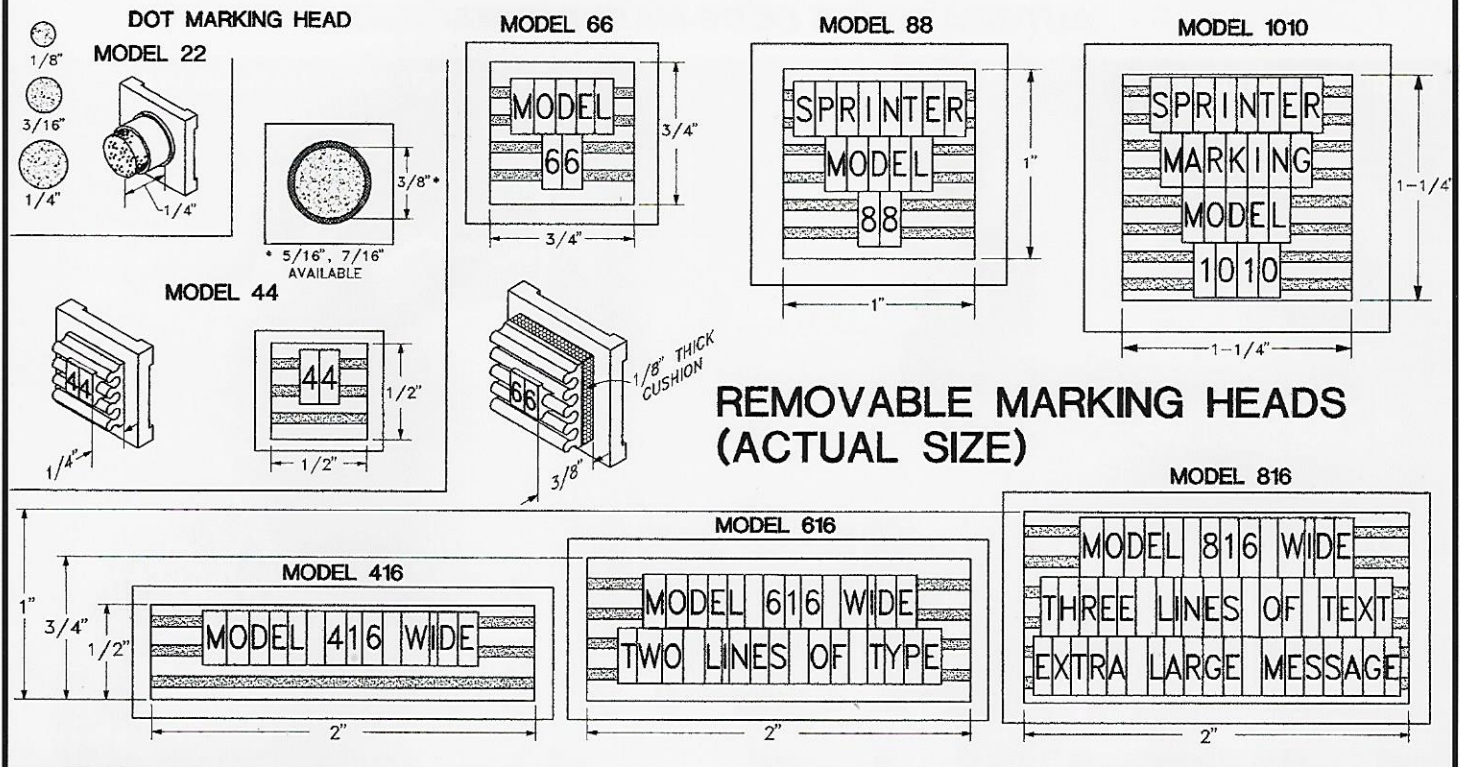

DATE / PRODUCT / SYMBOL CODING

MATERIALS

PAPER, METAL, PLASTIC

SURFACES

POROUS / NON-POROUS, FLAT, STATIONARY

REMOVABLE MARKING HEADS (ACTUAL SIZES):**REMOVABLE MARKING HEADS (ACTUAL SIZE)**

SPRINTER MODEL	WEIGHT OZ	SPEED CPM	DIMENSIONS IN INCHES		
			HEIGHT	WIDTH	DEPTH
22	4	350	6	5/8	2
44	8	350	8-3/8	3/4	2-3/8
66	13	250	9-3/8	1	3
88	16	225	9-3/8	1-3/8	3-5/16
1010	22	200	9-3/8	1-5/8	3-9/16
416	10	200	8-1/2	2-1/2	2-3/8
616	15	175	9-3/8	2-1/2	3
816	18	150	9-3/8	2-1/2	3-3/8

GENERAL INFORMATION: Sprinter machines were designed and are manufactured to provide reliable, low cost, ink code-marking (alphanumeric or symbol) impressions. They may be mounted in any orientation. The simple / smooth operation provides minimal maintenance and improved quality impressions. Fast drying inks (typically one second or less in all basic colors including white) can be changed easily with the quick-change ink reservoir. Message changes are fast with the easily removable marking head. The sealed ink system allows discontinuous operations with immediate start-up of comparable previous impressions. All standard machines may be extended in the piston stroke or the marking head for hard to reach areas. Sprinter Marking supplies all the basic, optional, and auxiliary equipment as well as operating supplies for normal code-marking operations. Sprinter machines have an unlimited one year warranty. All machines are covered by US and Canadian patents and made in the USA.
